
INVESTING DEEPLY *in the* COMMUNITY

Brad Miller is one of the many businesspeople fostering a community of service from the ground up through Entrepreneurs For North Texas (EFNT), a Communities Foundation of Texas program that makes it easy for small and midsized companies to do good. Each year on 9/11, EFNT hosts Freedom Day, an inspirational day of community service. This year, more than 911 volunteers from the business community put the tools of change to work by renovating transitional housing for veterans and revitalizing the VA North Texas Health Care System's Dallas Campus. A veteran himself, Brad was proud to serve those who have served.
